

**CROWLEY AMERICAN TRANSPORT, INC.**

March 29, 1994

TO WHOM IT MAY CONCERN:

For several years I have contracted the services of Canine Services, Inc. under the direction of Anthony "Tony" Piegaro and am continually impressed with the integrity and professional manner in which they perform the assignments given them.

Tony's reputation for quality performance among large companies such as mine, is confirmed continually. Not once have I, or other associates, been dissatisfied with the results of any assignment given to him.

His professional approach to our industry's narcotic smuggling threat has resulted a decrease in the amount of incidents my company has experienced. His procedures have been well accepted by the U. S. Customs Service, and those procedures have met the stringent standards set by that Service.

His performance record has been unblemished. My associates, with other firms in our industry, concur with me.

I have had the opportunity to use other services such as his and am qualified to say that his performance, integrity, and professionalism stands head and shoulder above other similar services.

I have and will continue to recommend Canine Services, Inc. and Tony. The continuing excellent results I have experienced from assignments to him speak for themselves.

Very truly yours,
